## 2010 Swim Course

The 2010 SPRINT swim course is a one loop counter clock-wise 750 meter lake swim; the INTERNATIONAL course is also one loop and is a 1500 meter lake swim. ALL participants will check into the swim start corral by passing over a timing mat. **YOU MUST CROSS OVER THIS MAT BEFORE ENTERING THE WATER.** We must have an accurate count of participants going into and coming out of the water. Please do not enter the water anywhere but through the swim start corral. A swim course map is available on the event web site. All SPRINT athletes will turn at the GREEN triangular buoys using the orange cylinder buoys for sighting; INTERNATIONAL distance athletes will complete the first leg of the sprint distance course turning at the GREEN triangular buoy before completing a long leg down the lake. A left hand turn at the yellow triangular buoy will bring athletes to another YELLOW triangular buoy before making another left hand turn. The final yellow cylinder buoy will signal a right hand turn into shore.

The swim will begin in waves. The wave breakdown can be seen on page one of the event information booklet. All participants must wear the swim cap provided to them at packet pick up. Wetsuits will be allowed per USAT rules. If the water temperature is between 78 and 84 degrees and you elect to wear a wetsuit you will not be eligible for race awards or SCTS scoring points. Please check in with the volunteer at the swim start corral if this is the case. We fully expect wetsuits to be legal for all.

## 2010 Bike Course

The 2010 bike course is one loop for the sprint distance and two loops for the international distance events. **NOTE:** International distance athletes **DO NOT** return to the event site to begin lap 2. Lap 2 begins at the intersection of Hwy 421 and Depot Street. At this point sprint distance athletes will turn left onto Depot St. to finish the one and only bike lap. International distance athletes will go straight through this intersection to begin Lap 2 and turn left at this intersection after the completion of Lap 2 to return to the bike finish. Turns will be marked on the pavement with orange spray chalk arrows and ORANGE directional signs. It is your responsibility to know the course. Police and volunteers will be on hand to direct you at the key intersections. Police will be on hand to stop traffic but we ask that you take the course with caution. Please follow all USAT rules which include riding to the right at all times except when passing. Draft Marshalls will be present on the course and penalties will be given. Remember, this course is open to traffic.

## 2010 Run Course

The 2010 run course is a flat out and back course with a final loop around the event site near the finish line. Sprint distance athletes will have their own turn around point at approximately mile 1 ¼. International distance athletes will have their own turn around point at approximately mile 2.9. Aid stations will be encountered approximately each mile. These aid stations will serve Water, Hammer Heed and Hammer Gel pouches of various flavors. We ask that all participants stay to the left at all times on this course. Turns will be marked with blue spray chalk arrows on the pavement and BLUE directional signs. Mile marks will be marked with BLUE mark signs. It should be noted that Langley Dam Road (the roadway immediately outside the event site) will be closed to traffic as bikes and runners will share this roadway. Runners will stay in the right lane heading out and return in this same lane on the way back in (In other words, runners will be running with traffic on the way out and against traffic on the way in on Langley Dam Road). If you cross the center line for any reason on this road you will be DQ'd. **NO EXCEPTIONS.**

When you return to the event site after the out and back portion of the course, you will be directed back toward the Transition Area, around the TA and then toward the event site entrance. After passing the finish line you will complete a short out and back section on the Dam before returning to the finish line.

## **A Message from the Head Referee to all age-group competitors...**

Most triathletes come to races with only a rudimentary understanding of the rules of the sport. Indeed, few have ever read through the Competitive Rules in its entirety. In order to minimize misunderstandings on race day, I hope you will take the time to read the following summary of Position Violations, which you probably know as the drafting rules.

I have reduced the Position Rules to the following concepts, which everyone can remember:

- **Ride on the right side of your lane.**
- **Keep three bike lengths between you and the cyclist in front of you.**
- **Pass on the left of the cyclist in front, never on the right.**
- **Complete your pass within 15 seconds.**
- **If passed, you must drop completely out of the zone, to the rear, before attempting to re-pass.**

Remember you are racing in a USA Triathlon sanctioned event and there are USAT certified referees on the course to ensure fairness in the competition. There will be **NO WARNINGS** if you commit a foul during competition. Triathlon is an individual event and you must take personal responsibility to understand the rules and avoid penalties. At the end of the race all citations by the officials are reviewed by the Head Referee who then decides if a penalty should be assessed. The Head Referee's ruling is final in the case of Position Violations and there are no protests or appeals of Position penalties. Officials commonly cite the following violations:

- **Illegal Position or Blocking – riding on the left side of the lane without passing.**
- **Illegal Pass – passing on the right.**
- **Overtaken - failing to drop back three bike lengths after being passed and before re-passing.**
- **Drafting – following a leading cyclist closer than three bike lengths and failing to pass within 15 seconds.**

Though Position Violations carry a time penalty for each occurrence, if you are cited for three violations, you will be disqualified.

Be sure that you have a CPSC approved helmet. Many foreign made helmets do not meet the safety standards of CPSC and are not allowed in USAT sanctioned events. Always have your chinstrap securely fastened! The helmet and chinstrap rule apply before, during, and after the event. The chinstrap rule is the easiest to follow, but some folks always seem to forget – that's a DQ!

Remember to treat other athletes, volunteers, and officials with courtesy and consideration. Failure to do so is called Unsportsmanlike Conduct and you will be disqualified.

All that being said, I hope you have a great race, lots of fun, and achieve all your goals.
